

17-February-2018

Chair Keith Promislow,

You have been running the math dept with racist discriminatory policies, which has created a hostile work environment. Your administration has already been cited by OIE for violating anti-discrimination policies of MSU. You retaliated dept members who criticized your discriminatory policies (both faculty and students). When I criticized, you disrupted my teaching by forging my academic records and lying about my federal grant records (NSF) in order to penalize me from HR. In addition to that you embezzled money from my paycheck, now you are blocking my website which is my primary communication channel with my students and colleagues as an academician. We can not have a discriminating lying embezzler running our dept (see the link below and references therein). Chair Promislow you need to resign!
